CP Catalogue 2018 Supplement

This year's eagerly awaited supplement to the CP Catalogue of New Zealand Stamps has now been posted to all subscribers. The 2018 supplement can best be described as a revision of "middle period" NZ philately, with the opportunity being taken to revise four Sections 1900 – 1938. In addition two early decimal currency Sections 1967 and 1975 have received attention, plus one 'back-of-the-book' Section: Postage Dues. Plus one Section has been extremely carefully completely revised with changes to virtually every entry – Section T 1929 – 2016 Health ... more on that later.

First we have the 2018 colour Permanent Pages with all 2017 New Issues in definitives, commemoratives, Christmas and Ross Dependency receiving the usual high quality colour listings. A note on the current Third Series Scenic Pictorials on Perm pages PE18 and PE19: these are provisional CP Catalogue numbers only and will be revised each time new definitives are issued, to enable the series to run in denomination order, lowest value to highest value. New Zealand Post have announced new gummed and self-adhesive values for the 2018 postal rates increases, so the provisional CP Cat. numbers on these pages will be revised in next year's suppt.

Moving on to the Temporary Pages, we come to Section F 1900 ½d Mt Cook green. Here we list new discoveries of double perfs in Waterlow perf 14x11, Cowan no wmk perf 11 and Cowan wmked perf 14. Genuinely postally used examples of the horizontal pairs of Cowan perf 14 imperf vertically have now been verified and thus these are now priced used – F4b(z) \$1500.

In Section H 1909 King Edward VII (as in all Sections in the 2018 suppt) catalogue values have been accurately revised to bring them more in line with current world market prices. This has produced increases, and decreases, in this and some other CP Cat. Sections. As examples: 4d red-orange, both perfs UHM, show increases \$75 to \$100, but 5d brown, both perfs UHM, show decreases \$200 to \$150. The same 5d value perf 14x14½ inverted watermark mint, previously not known to exist mint has now been verified and is priced: \$2500. In the Officials the unique copy of the 6d carmine Official perf 14 line used, offered and sold by CP in the CP Newsletter, increases \$10000 to \$15000. Section J 1909 1d Dominion sees increase in most of the well-known listed plate-varieties: "Q" flaw, ships bow split flaw, "broken globe" flaw, "feather" flaw and "broken N" flaw.

Responding to a number of requests since 2009 the decision was taken in the 1938 King George VI Section M to relist lightly hinged mint prices. Notable price increases include 1d green Plate 126 \$3000 to \$5000, 1945 6d blue colour trial \$1200 to \$1750, 1/3d "make-ready" proof \$1000 to \$2500, and the 1953 1d surcharge with the "D" of surcharge missing a used copy of which sold in London for \$10000. In the Officials the ½d green Official Plate 1 increases \$2500 to \$4000, the 6d Carmine Official stamp on coarse paper UHM \$85 to \$150, and the 9d grey-sepia Official similarly on coarse paper UHM \$185 to \$250.

The first page of Section O 1960 Pictorials saw additional listings of double perfs in ½d Manuka, 1d Karaka and 2d Kaka-Beak. In the same series in decimal currency

CP Catalogue 2018 Supplement (cont.)

1967 Pictorials Section OD we note: 2½c missing deep blue colour \$5000 to \$6000; 20c Maori Rock Drawing missing buff colour \$1000 to \$2000 and 18c Wool Industry printed on the gum \$1400 to \$2500, and an imperf pair is now listed in the same stamp.

In Section PA 1975 Pictorials a new shade is added to 8c 'Josephine Bruce' rose Shade (4) lemon-yellow; and \$5.00 Beehive imperf pair \$2000 to \$3000. In Section S Commemoratives: 1953 3d Coronation double-paper reel-join \$500 to \$2000, 1959 3d Red Cross missing red \$5000 to \$7500, 1963 3d Telegraph missing green \$2600 to \$5000 and 8d Teleprinter missing grey-black \$3500 to \$5000. In the 4d value of the 1965 Commonwealth Parliamentary Conference missing blue colour \$1500 to \$3000; printed on the gum \$2000 to \$3000; and a new listing of double perfs goes in at \$1250.

In mid-2017 New Zealand Post made the surprise announcement that it would no longer be releasing annual Health stamps. Thus Section T, begun in 1929, was now completed in 2016. In the CP Newsletter we immediately recommended that all New Zealand Health collectors ensured they were as complete as possible in their holdings of these stamps. We thought that worldwide demand for NZ Health issues would increase, and we weren't wrong!

Demand for Health, earlies and recent, stamps and FDC, varieties of all kinds, and especially Plate and Imprint blocks, has been considerable. Health issues have shown a marked increase in popularity and this is still ongoing. There cannot be many 'complete sets' of a favourite aspect of a popular philatelic collecting country that can still be obtained complete. Once again may we suggest you check your Health collections against the listings in the 2018 CP Catalogue suppt and let us have your wants – we still have stock at the moment but as for the future, who knows! As mentioned the demand for Health Plates has resulted in Cat. increases for virtually all of these; in addition significant increases are: 1931 Smiling Boys set UHM \$900 to \$1050 and FDC \$3300 to \$6000; 1962 2½d Kakariki missing orange \$2500 to \$4000; 1966 4d Weka missing sepia \$4000 to \$5000 and 3d miniature sheet double perfs \$400 to \$1000; 1968 3c Olympics missing green \$1500 to \$3000 and missing blue \$2250 to \$4000.

Lastly in Section Y 1899-1939 Postage Dues fine unhinged mint and finest used exhibit increased catalogue prices, notably: all in unhinged mint: 1899 First Series ½d large "NZ" \$70 to \$140; both 1d's large "D" and small "D" now both \$100; and top values 1/- \$400 to \$475, and 2/- \$675 to \$750. In 1902 Second Series ½d Jones \$100 to \$150, ½d Cowan perf 14 \$150 to \$300; 1d De La Rue \$50 to \$100, 1d Cowan perf 14 \$30 to \$60; 2d perf 11 \$400 to \$500, 2d De La Rue \$100 to \$200, 2d Cowan perf 14 \$50 to \$100. And in 1939 Third Series 1d single wmk sideways watermark \$400 to \$500, 2d single wmk \$15 to \$30. Finally all 2017 CALs are listed on Temp Pages Appx C17 and 18.

NEW DISCOVERIES

Second Sides

From Cory Matthew of Woodville in New Zealand's North Island comes a new listing in the SSF ½d black. This is D1e(q) the 1896 perf 11 printing imperf at right with right selvage. This variety is already known in perf 10x11 – D1c(t), so this perf 11 variety imperf at right, now joins the listed perf 11 variety imperf at base with selvage.

Full Face Queens

From Ron Cousins comes a most interesting 3d Chalon Head, pictured below. This is A3d 3d lilac 1864-1873 Large star wmk perf 12½. Ron's copy however has no vertical row of perfs on the right. The position of the left vertical perfs being so far to the left, indeed showing part of next unit on left, one might have thought that the right vertical perfs would be in much the same position. However, rather than being positioned to the left, if indeed they existed at all, these perfs would have been far to the right, through the next unit on right. Instead we have a sloping imperf edge, a scissor cut?

Bob Odenweller considers that 'one could justify calling it "one side imperf vertically" ' but without the stamp to its right it would not qualify for making it a catalogue variety.

Commemoratives

Finally from Jill Nutsford of Tauranga we have an excellent prominent transient litho ring flaw in the lower right corner of the middle stamp in the strip of three 1981 Feilding stamp, pictured below. Known in printing terminology as hickies, these transient flaws occur in offset lithography printing as a result of the intrusion of foreign matter on the plate during printing.
