iSite Regional Stamps Booklets

These are listed on Temp Pages Appendix C1A-C1B and exist in 70c and \$1.90 stamps in \$7.00 and \$19.00 booklets; 80c and \$2.00 stamps in \$8.00 and \$20.00 booklets; and \$1.00 and \$2.20 stamps in \$10.00 and \$22.00 booklets. Now with the 1 July 2018 postage rates increases these are joined by \$1.20 and \$2.40 stamps in \$12.00 and \$24.00 booklets.

As previously they are designed by New Zealand Post Ltd, Wellington from photos and captions supplied by iSite and printed by Southern Colour Print Ltd, Dunedin. However there are some booklet design changes for the first time in this series. Staying the same are: Auckland / Northland & Coromandel; Waikato; Eastern / Central North Island; Wellington; Top of South; Canterbury; West Coast; Lower South Island; and New Zealand Iconic Images. (Incidentally, with new booklets being prepared I would have thought the opportunity should have been taken to correct the spelling mistakes in the existing booklets, eg Railway Station, Dunedin, but nothing has been changed.)

The unprinted booklet is: Taranaki / Western North Island. The two new booklets are Manawatu, and Taranaki. Full design details of these will be on the Appendix pages in the 2019 CP Catalogue supplement.

New Issue Notes (cont.)

Reconnecting New Zealand (2 May 2018)

The raison d'être for this issue would seem to be rather tenuous.

Granted that the 14 November 2016 7.8-magnitude earthquake that struck 15km north-east of Culverden, North Canterbury had devastating consequences, entailing an extraordinary reconstruction job, with State Highway (SH) 1 and the Picton – Christchurch rail-corridor both being completely blocked. But what about other equally important NZ engineering feats, eg the 2.5km Waterview twin-tunnels in Auckland, even the Christchurch rebuild itself. Perhaps two stamps for each would have been fairer, instead we get six just for this.

Designs:

\$1.00 Shape of the future – a huge landslide completely blocked SH1 and Irongate Stream, north of Kaikoura, entailing SH1 being moved seawards away from the landslide

\$1.00 Taming the Cliffs – abseilers were utilised to install geomesh on cliff-faces to prevent further rockfalls

\$2.00 Moving Mountains – south of Peketa earth moving machinery cleared landslides

\$2.20 A Hard Road – many Seawalls needed complete reconstruction

\$2.70 Engines That Could – to allow KiwiRail's specialised work-trains into the coastal corridor a special Temporary Bridge 131 was built at Whareniui

\$3.30 A Special Delivery – the first freight train from Picton to Christchurch on the main North Line travelled on 15 September 2017 (I wonder if there was any philatelic mail aboard?)

Designed by Saint Andrew Matautia, New Zealand Post, Wellington and printed by Southern Colour Print Ltd, Dunedin by offset lithography, in the four process colours, perf 14½x14 on Tullis Russell 104gsm red-phosphor gummed stamp-paper: six stamps in sheets of 25 and a six stamp miniature sheet.

Royal Wedding Harry & Meghan (21 May 2018)

This is a perhaps surprisingly well prepared sheetlet in celebration of Harry and Meghan's wedding on 19 May 2018 at St Georges Chapel, Windsor Castle. The six \$2.70 stamps feature two images from the engagement and four from their wedding day. Whatever your views on sets of stamps versus sheetlets, on this occasion this one was permissible.

New Issue Notes (cont.)

Designed by Dave Burke, Auckland and printed by Collectables and Solutions Centre, New Zealand Post, Whanganui, in the four process colours on Tullis Russell 104gsm red-phosphor gummed stamp-paper, perf 14½, sheetlet of six stamps

New Scenic Definitives (6 June 2018)

Here are six new defs for the 1 July 2018 postages rates increases. There are three new designs:

\$2.40 Mt Maunganui, Tauranga (gummed, 2x self-adhesive)

\$3.00 Tongaporutu, Taranaki (2x self-adhesive)

\$4.40 Lake Te Anau, Fiordland National Park (gummed)

The \$3.00 value is interesting. Changing from a gummed format to self-adhesive, at first glance the Taranaki image used is the same. However careful magnified examination suggests otherwise. Either the original image has been 'photo-shopped', or, this is a new photo taken on a different sunnier day but from what must have been virtually the identical position on the beach. There are ever so slight differences in the clouds, in the shadows on the cliffs, in the reflections in the water, in the ripples in the sea.

Designed by Jonathan Gray, New Zealand Post, Wellington and printed by Southern Colour Print Ltd, Dunedin, by offset lithography in the four process colours, perf 13½, on Tullis Russell 104gsm red-phosphor gummed stamp-paper, in sheets of 50.

Self-adhesives in booklets of five and jumbo-roll pair, diecut perf 10, booklets printed on Tullis Russell 220gsm PSA red-phosphor self-adhesive booklet stamp-paper tagged with red-phosphor, booklet matrix intact; jumbo-roll self-adhesive pair plain backing-paper, matrix intact, thin vertical black line between designs, on thinner self-adhesive paper tagged with pink-phosphor.
