# New Zealand Notes

By Andrew Dolphin

## Further New Discoveries

### **½d green Mt Cook**

The four original Plates of the 1900 ½d green Mt Cook stamp were produced by Waterlow & Sons. Then, in 1907, four new Plates were produced to print this issue by Perkins, Bacon & Co. Unlike the earlier Waterlow Plates (which only after they had been in use for some time was a Plate number, 1, 2, 3 or 4, scratched on the bottom selvedge), these new Perkins, Bacon Plates had makers' Plate numbers appear in the top left corner, again 1, 2, 3 or 4.

All four Plates were then used to produce the New Plates printings, with the three different perforations: perf 14; perf 14x12¾-13¼; and perf 14x15. Sheets of this final perf were sent to the Government Printer, Wellington for overprinting 'OFFICIAL.', F05c. For over a hundred years it was thought that only sheets from Plates 1 and 3 were thus utilised for Official overprinting.

Now, in an important new discovery by Ian Danson of Germany, comes the information that Ian has a mint right selvedge block of four ½d green Mt Cook Official perf 14x15, with the unmistakable R7/24 flaw: a thick line of colour disfigures the top right corner of the stamp. This flaw is from the previously unknown (in the Official) Plate 2!

The listing of Plates under F05c will thus now be amended to read "Plate numbers 1, 2, 3"; and added will be: F05c(z) Flaw: Plate 2, R7/24.

All that now remains is for some specialist NZ collector to find the other ½d green Mt Cook Official Plate 2 flaws, that of: R10/8 the well-known "PFNNY" flaw; and the R9/23 re-entry.

### **King George V Surface**

From Barry Dent of Wellington comes another damaged dandy-roll watermark variety. This is a used ½d green Cowan paper perf 14x15 and has the 'Z' of 'NZ' missing from the watermark. This thus becomes K13e(u), and joins similar watermark errors known on K15b 1d Field Marshal perf 14x15.

### **Commemoratives**

Lastly, from Roger White of Axminster, England we have a small but interesting mint constant flaw on the 1d rose 1925 Dunedin Exhibition stamp S17b. This is a thin irregular circle, roughly 2mm diameter, straddling the left frame panel and vignette.

## **New Zealand Notes (cont.)**

Roger has plated this variety to R10/4. It would be interesting to ascertain if this R10/4 small flaw also occurs on the ½d and 4d 1925 Dunedin Exhibition stamps.

### **The Four Process Colours – follow-up, part II**

Once again from Alastair Watson of Christchurch, and still on the topic: “is black a colour?”, comes the fascinating report that Dr Brian Wardle and his team at MIT (USA) have invented a material that is ten times blacker than anything else previously reported, that absorbs 99.995% of light. It is made of vertically aligned carbon nanotubes.

### **Philatelic Literature Exhibition**

This 16th New Zealand National Philatelic Literature Exhibition was held recently, 28-29 September 2019, in Christchurch.

We entered the Campbell Paterson Newsletter, and are pleased to report that it received a Silver Medal.

More significantly, we also entered the Campbell Paterson Catalogue of New Zealand Stamps 1855-2019. We are delighted to report that not only did the CP receive a Large Vermeil Medal but also a Special Prize for the Most Improved Stamp Catalogue. This means that your CP NZ Catalogue remains the most successful and universally-used specialised reference handbook for New Zealand stamp collectors worldwide.

### **New Scenic Definitives (5 June 2019)**

Here are seven new defs for the (seemingly annual) 1 July 2019 postage rates increases. There are four new designs:

**\$2.60 Escarpment Walkway, Paekakariki**

**\$3.30 Dunedin Railway Station**

**\$3.90 Banks Peninsula, Canterbury**

**\$4.50 Shotover River Valley, Otago**

## New Issues (cont.)

The \$3.30 value changes from a gummed format to self-adhesive, with the \$2.60 stamp appearing as gummed and self-adhesive. The two high values are fine designs: a spectacular sunset over Banks Peninsula, and a brooding landscape along the Shotover River Valley.

Designed by New Zealand Post, Wellington and printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours, perf 13½, on Tullis Russell 104gsm red-phosphor gummed stamp-paper.

Self-adhesives in booklets of five and jumbo-roll pair, diecut perf 10x9½, booklets printed on Tullis Russell 210gsm PSA red-phosphor self-adhesive booklet stamp-paper with phosphor tagged frame, booklet matrix intact; jumbo-roll self-adhesive pair plain backing-paper, matrix intact, thin vertical black line between designs on self-adhesive stamp-paper with phosphor tagging.

### Provisional CP Catalogue numbers:

PE137a, PE137b, PE137b(z), PE140b, PE140b(z), PE143a, PE146a

Booklets: W175a (code NZ9G26BK); W176a (code NZ9G33BK)

### Kupe – The Great Navigator (5 June 2019)

Eight \$1.30 stamps, in a setenant block and a miniature sheet, tell the story of Kupe's journey from Hawaiki to Aotearoa, depicting people, places and Polynesian navigation. In local oral tradition, Kupe and his family are cited as being the first people to set foot on New Zealand soil. Kupe – The Great Navigator stamps were released to celebrate Matariki, the Maori New Year 2019. Regrettably the colour scheme chosen is a somewhat lurid one, unpleasantly, and unnecessarily, bright in colour.

### Designs:

- (i) The Journey begins
- (ii) Kupe The Great Navigator, standing waist deep in the sea with his arm outstretched towards Aotearoa
- (iii) Navigating the Canoe at night by means of a Star Compass of the moon and stars
- (iv) Kupe's wife Hine-te-Aparangi sees a colour distortion on the horizon, the First Sight of Aotearoa
- (v) The Arrival at New Zealand
- (vi) The Battle with the Giant Octopus
- (vii) Red Rocks (Pariwhero) and Kupe's daughters
- (viii) Kupe's toki (adze) and the Return Home

## **New Issues (cont.)**

Designed by Dave Burke, Tauranga and printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours, perf 14½, on Tullis Russell 104gsm red-phosphor gummed stamp-paper, eight stamps in a sheet of 24 and an eight stamp miniature sheet

S1861a-S1868a, SM1861/8

### **China 2019 World Stamp Exhibition, Wuhan (11 June 2019)**

A Native Alpine Flora stamps miniature sheet to celebrate China 2019, held at the Wuhan International Expo Centre, 11-17 June 2019. The stamps were originally perf 14; in this miniature sheet they are perf 13. The face value of the stamps is \$4.80, with a \$2.00 surcharge for the NZ Philatelic Trust. For the seven days of the Exhibition there was a 'Day' overprint for each day.

The accompanying FDC is amusingly captioned: "CHINA 2019 WOLD STAMP EXHIBITION".

Stamps designed by Stephen Fuller, Wellington; miniature sheet designed by New Zealand Post, Wellington and printed by Southern Colour Print Ltd, Dunedin by offset lithography in the four process colours, on Tullis Russell 104gsm red-phosphor gummed stamp-paper, New Zealand Native Alpine Flora II stamps now perf 13 (from perf 14) SM1834,6,7 (containing S1834a(z), S1836a(z), S1837a(z))
